Harold,

Just talked to Wayne on the phone. Looks like he and I can't help you much.

He's moved several times, so had no idea of where some of his material landed. He does remember getting the Sausage-&Eggs material from you several years ago. You thought the man was a student, but Wayne didn't agree.

Wayne said author Bill Pepper had queried him about that matter, and also that BBC had been in touch about an MLK documentary. Wayne said he had been able to help either of them much. What?

He sends regards, as do I. Sorry more help not available from here.

Regards,

Phil.
